

Submitter: Stephen Hunter
On Behalf Of: NAV
Committee: House Committee On Early Childhood and Human Services
Measure, Appointment or Topic: HB4059

Oppose HB 4059. Seriously? You want government to have more control over children?? Based on a families income?? After you have raised taxes, forced businesses out of business, contributed to the highest utility rates we've ever seen and now declare a parent is broke so you want to take the kids? Shall I go to masking children and forcing "distance learning" harming educational development for two years? How about enabling the mutilation of kids after you have brainwashed them that they are in the 'wrong' body? Thank goodness the ability to sue the medical industry over that great injustice is now taking hold. Leave the families alone, oppose HB 4059.
