Committee: House Committee On Health Care

Measure, Appointment or Topic: HB4074

Please do not believe what the Hospital systems are saying. The ONLY thing preventing them from hiring adequate appropriate safe staffing is greed. Kaiser specifically has a handful if multi millionaires while frontline workers can barely make ends meet each month. Nurses are constantly in a state of burnout due to work overload combined with the need to pick up extra shifts to survive. Hospitals want to put patient premiums into their own pockets instead of investing in providers and facilities to care for members.
