

Submitter: B Tobias
On Behalf Of: COMMON SENSE BILL FINALLY
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB1540

This bill allows for needed transparency for people whose fire insurance costs have skyrocketed but without any explanation for opportunity to mitigate any fire concerns in their home or community. Great idea to require insurers to provide explanations and details of how their arrived at their costs and force them to provide opportunities to folks to do property specific mitigation to help keep costs down, and help everyone in preventing fires from spreading.

Great ideas in this bill
