Senate Committee On Rules

Measure, Appointment or Topic:

SB1501

I urge our representatives to vote NO on this bill. Oregon government needs to get back to it core reason for existent which is safety, infrastructure and quality of life. The MODA center serves absolutely no benefit to the majority of Oregonians. The argument that the venue brings business dollars to Oregon is weak if the profits it provides does not reach all Oregonians. Portland is 'bordered' area that most Oregonians never venture to and never will have. They have no want or need for the things that it offers. If the MODA center is such a great deal, let it be private funds that support it. Simply one of things that should be 'if you use it, you need to pay for it.'
