

Submitter:	Mike Slagle
On Behalf Of:	No New Taxes
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1501

How can you with a straight face say we the taxpayer should bail out another mismanaged facility. First we had an "emergency" to push through the transportation tax, next it got referred to the voters, then SB1599 is trying to thwart the wish of Oregonians, the people who you are supposed to represent. Do you here yourselves that you think we working families who are struggling to get by already would want more burden put on them. I swear the democrat elected officials think that we are just here to take money from to fund your wishlist. Why dont you budget just like every family in the state does. Maybe take the sanctuary status out that undoubtedly costs millions of dollars to support would be a start. You democrats are really tone deaf, listen to the people for a change and let us live our lives with less government interference.
