

Submitter: William Haskins

On Behalf Of:

Committee: House Committee On Health Care

Measure, Appointment or Topic: HB4074

My spouse is an ICU nurse. Whenever there are shortages or staffing issues, one thing is clear, patients suffer. Nurses need protection from hospitals that prioritize profits over patient health. Having a nursing plan that is supported by the nurses union is crucial to patient care and nurses mental well being. Without adequate support and staffing nurses are more prone to burnout and depression. Please do not revoke HB2697 which has helped protect many nurses and by association the patients.
