Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1501

Greetings Committee on Rules

This is breaking promises of Democrats who claim to tax the rich. This is prime example of the richest 10% not adhering to being taxed by tax dollars being given over to a private enterprise. I don't get the same for my home, or anyone else. Read Section 2 for funds being sent to this renovation. The rest of us regular Oregonians have to pay this, and we're sick and tired of being taxed and our taxes being used in this fashion while we, the People, have to pay for rich people's taxes and expenses while our kickers are denied without representation.

This is simply authoritarian and taxation without representation.

Tony
