Measure, Appointment or Topic: SB1522

You must stop urban growth into rich farmland in Oregon. VOTE NO ON SB 1522
It's bad enough you've allowed data processing centers to creep into rural areas.
They use vital clean water and use huge amounts of electricity. There was no
legislation to force data centers to build water purification systems so they could use
grey water AND no mention of creating alternative power sources, such as wind or
solar to provide energy for themselves.
Land use is a serious issue in Oregon.
I urge you to vote no on Senate bill 1522
