Written Testimony in Opposition to HB 4074

Chair Nosse, Vice Chairs Nelson and Diehl, and Members of the Committee:

For the record, my name is Alvina Chevdar. I am a registered nurse and have worked as a nurse for eleven years. I currently work at Kaiser Sunnybrook ASC and I am a member of the Oregon Federation of Nurses and Health Professionals (OFNHP AFT-5017). I am writing in strong opposition to HB 4074.

Every day, I provide direct patient care, and the nurse staffing law passed in 2023 has a real impact on my ability to do my job safely and effectively. HB 4074 would make significant changes to the enforcement of that law. If passed, it would lead to poor quality patient care, nurse burnout and more nurses leaving the profession.

HB 2697 was the result of years of research, negotiation, and stakeholder engagement. Rushing through changes to the statute will only put providers and patients at risk. Advancing HB 4074 now would shortcut that process and risk unintended consequences that cannot be fully evaluated in the limited time available.

From my experience, the current law is working as intended, and barriers to passing plans are rooted in unwillingness to utilize escalation and acuity tools. Hospitals were given ample time to comply, and the vast majority have done so. One of my worst shifts to date was when half the unit called out and we were left with all the patients. Nobody was canceled for their procedures and surgeries, while we struggled the entire shift with no lunch breaks, exhausted mentally and physically. Many mistakes were made that day and I would never agree to take an assignment like that again.

Weakening enforcement through delayed penalties or reduced accountability would effectively suspend the law without the thoughtful analysis such changes demand.

For these reasons, I respectfully urge you to oppose HB 4074 as currently written.

Thank you for your time and consideration.

Sincerely,  
Alvina Chevdar
