Submitter:	Emily Herbert
On Behalf Of:	
Committee:	Senate Committee On Finance and Revenue
Measure, Appointment or Topic:	SB1586

Please do not release this bill for a vote. The semiconductor industry does not need tax breaks to the same extent as Oregonuans need sustainable employment and small business growth for sustainable living . This bill is also relevant to AI land, water and cooling needs for collisal industrial parcels which are threats to agricultural lands. Battery advancements could make data centers obsolete in 5 years.
These issues need to be considered as systems, not quick fixes to one problem while causing a cascade of others.
Please send back to committees for revisions.
