

Submitter: Robison Heather

On Behalf Of:

Committee: House Committee On Health Care

Measure, Appointment or Topic: HB4074

My name is Heather Robison, I have been an RN for 30 years. Adding a 5th patient to our extremely heavy work loads is simply not physically possible. The patients become more and more complex and nurses are already trying not to cry taking care of 4 med tele My floor is med-tele and it is dangerous to patients to change ratio. I truly believe people will experience severe consequences, even death if a nurse has to take 5 patients. Thank you for your time
