

Submitter: Tomoe Crawford  
On Behalf Of: nursing professional  
Committee: House Committee On Health Care  
Measure, Appointment or Topic: HB4074

Changing the patient ratio to 1:5 will definitely negatively impact safety and quality of patient care. It is unbelievable that the change is even considered. Changing the patient ratio 1:5 affect not only the whole Oregon residents who receive any nursing care but also the reputation how little Oregon values safety and life in healthcare.
