Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1501

Going to a game can be fun but not at the cost of missing meals and prescription medication. That is what Oregonians are facing today. We are taxed to death. There is no more to take. Every day we make hard choices on what to spend money on while those on government benefits enjoy the best foods offered. Every day we make the hard choice to get up and goto work to keep it all going. Please, please, please don't add to our burden by taking ownership of the Moda Center. If folks want it then slow the market to fund it. If the market cannot bear the costs please don't expect us to take it on. If I ever do get any extra cash, I will attend and support my local High School teams.

I urge you to vote no on this burdensome bill.
