Government

Measure, Appointment or
Topic: SB1577

Correct food labeling is matter of consent. Plain and simple. Our beautiful state contains a diverse array of human beings. To ensure that the products the people of Oregon are consuming are labeled in a clear and concise manner, looks after that diverse community. Food labeling is not about pandering to a current market, rather it is there to inform the consumer. This is essential for both personal, religious, dietary, and nutritional reasons. I support transparency in labeling, please support this bill.
