SB1501

Growing up in Vancouver wa I was blessed to have attended Trail Blazers games! I've shared so many memory's in moda center from affording season tickets in section 313, to seeing Brandon Roy to now the current players do so much for the city and play there hearts out! I truly hope I can be apart of the next generation to see the blazers play in an updated moda center. Moda center is the home to the passion of ripcity during basketball season and during concerts as well! I won't be the only one sad if this bill isn't passed. Please give the kids growing up in this community the childhood I grew up with an a arena that's here to stay
