Measure, Appointment or Topic: HB4076

I OPPOSE [HB 4076].

'No' study is needed, just enact the following:

Focus on Natural Gas Cogeneration Energy facilities.

Create a Liquid Natural Gas facility when the Port at Coos Bay is expanded to a deep-water port.

Support Fusion Research.

Abandon any thought of more Bird-killing windmills.

Outlaw solar farms and tax subsidies (if any are left available).

Locate sites for future Dam construction for a variety of reasons such as hydroelectric power and fresh water conservation.
