

Submitter: Robert Marquis

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4117

Dear members of the House Committee on Judiciary,

Thank you for your service and thank you for the opportunity to provide testimony in support of this very important House Bill, HB 4117.

Immigrants are a vulnerable population, especially at this time when they can be rounded up by ICE without a warrant, and deported without a court hearing. Even if they were given a chance to explain their case in court, they often can't afford representation. With the funding it provides, HB 4117 helps ensure that immigrants in our sanctuary state will get due process. It will help keep vulnerable children with their families and allow them to access critical healthcare.

Please vote in favor of HB 4117.

Sincerely,

Robert Marquis.
