

Submitter: Judy Froemke

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4117

I support HB 4117 because I want due process for all, and that includes legal representations for our low income immigrants and refugees when facing possible deportation. Passage of this bill will help people navigate through the legal system, with interpretation service and payment of legal fees, and will reduce some of their financial, physical, and emotional stress. It represents our humanitarian nature.
