Committee:

House Committee On Revenue

Measure, Appointment or Topic:

SB1507

Oregon is unlike most states in our current situation where any change to the federal tax code automatically becomes the same change to Oregon's tax code. We need much more agency than that in our ability to choose what is good for our state. At this time Oregon stands to lose significant revenue, which we cannot afford to have happen. That this bill will be retroactive to January of 2026 is very good. I hope this bill will be passed in both chambers and become law.
