

Submitter: Patricia Wolter

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4084

Committee Members,

I am writing in opposition to this proposed bill. As a taxpayer, I fail to see how hand-outs in the form of tax breaks given by state and county governments to high tech companies and other sectors, whose profits easily could cover their capital investments, is a fair trade-off for the cost of infrastructure paid for by my taxes. True prosperity is not measured by quarterly profits, but by holding the highest use of our natural resources for future generations. Oregon can stand out from the herd and win the race.

Sincerely,

Pat Wolter
