I strongly oppose another attempt to raise taxes. You say one tax will go down if this tax passes, but the government still gains 90% more of our money. Our taxes are already too high and government does not come through. No one is held accountable for what monies you already have. Too many businesses --therefore, jobs! --are leaving this state. Learn to manage on a budget. Like citizens must. Oh, and this Short Session was approved by voters for ONLY that purpose: budgeting! Evidence of Oregon government's lying tendencies. Hear us once again, "NO MORE TAXES!"
