

Submitter: Jeremy Moore

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: SB1507

As a classified employee and school bus driver, I am asking you to support and pass SB 1507. Every day I worry about how funding cuts could affect transportation and how long students may have to wait if routes are reduced. When school budgets get tight, transportation is often one of the first areas cut, and bus aides on special education routes are usually among the first positions to go. We already saw some of these aide positions eliminated in the last budget cycle, and the impact is real for the students who depend on that support. Please help protect Oregon's students and the staff who serve them by supporting SB 1507.
