

Submitter: Peggy LeClair

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: SB1507

As a classified staff working in an elementary school, I urge you not to cut funding for schools here in Oregon. Classes are already too big, teachers are stretched to the maximum, and there is not enough classified support staff to support the needs we do have. Many students are going to fall further behind than they already are without sufficient funding. And what's worse, every year, more and more students are coming to school ill prepared for the grade they are attending and don't get me started on the behaviors that have to be contended with, from general education population to our special education students. Please, please, please, don't cut school funding!! Our future depends on how you all handle this situation!!

Peggy LeClair

Education Assistant for

The Hillsboro School District
