Measure, Appointment or Topic: HB4038

This bill suspends the Health Care Cost Target Program arm of OHA, which will allow even more increases in healthcare costs to Oregonians. It has been identified the the major cause of bankruptcy in Oregon is the burden of healthcare costs. This bill ties in nicely with 4179 which would allow OSHU to become non profit, which is just another word for "we can make more money" off the patients without improving their healthcare. OHA would not penalize those that exceed the target they have set for 10 years
