Measure, Appointment or Topic: SB1586

I urge the Senate Committee on Finance and Revenue to vote against moving SB 1586 forward. There are far better uses for some Oregon's best prime farmland than industrial development, which would permanently preclude any future agricultural or similarly productive use of this land. It also sets a bad precedent for other Oregon cities and towns who wish to circumvent normal land use zoning processes to fast track ill conceived largescale industrial development on prime farmland.

Thank you for reading my comments.
