

Submitter: Ruppert Reinstadler

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1538

I very much oppose this bill. This bill supports "illegal" behavior and puts responsibility on our education system for protecting this completely illegal behavior.

This bill is an attempt to obstruct the enforcement federal immigration laws and deporting criminals.

It incorrectly puts unqualified district school employees into a position of legal analyst.

There is no logical reason to jeopardize federal education funds and like most Oregonians I am tired of of our state illegally blocking federal law enforcement. As has been the case in this

state and others, You are willingly creating chaos and jeopardizing the safety of all Oregonians. This also sends a dangerous message to students.
