Measure, Appointment or Topic: HB4028

Dear Chair Patterson, Vice-Chair Hayden, and Members of the Senate Committee on Health Care,

I am a psychologist in private practice in Bend, Oregon and my name is Lura Reed. I ask that you prioritize and support HB 4028. I believe informative documentation is essential in the relationship between insurer and provider, but the idea that insurers have the right to audit and demand claw backs years after the date of the session is unjust and corrupt. I support HB 4028 because it reduces the window for insurers to claw back money to 12 months, requires insurers to communicate clearly with providers, and offers more rights to providers in the auditing process. Let's begin to make changes in our world that allow all acting parties to have equal power in their interactions.

Thank you,  
Lura Reed, PhD
