

Submitter: B Tobias  
On Behalf Of: NEXT A DEGREE IN FUN AND GAMES  
Committee: House Committee On Education  
Measure, Appointment or Topic: SB1538

You have got to be kidding!. YOUR GOING TO ALLOW FREE PLAY ACTIVITIES TO REPLACE THE TEACHER, so they feel "less pressure" to learn!!

IF the intent of this bill is to drop Oregon to # 50 out of 50 states for illiteracy, inability to hold down a job, poverty and depression, then you are on the right track!

The people of Oregon prefer to have our children taught the elements of education which will aid them later in life and help them become productive, happy citizens.

The job of schools is NOT to tell the public that they are supposed to defy our federal laws to make a few people feel better about themselves., they are to educate our children, no more, no less. Oregonians choose to abide by federal laws and do the right and moral thing, regardless of what any school says
