If Oregonians cannot expect the Federal government to protect our fourth amendment rights then our state legislature needs to do so. An administrative warrant is not the same as a judicial warrant. We expect law enforcement to obtain a judicial warrant for someone with probable cause that they have committed a crime. It happens all the time. In the zest to deport a certain number of undocumented foreigners by how they look or speak more U.S. citizens have been abducted. We still live in a democracy where the constitution and laws mean something and they apply to everyone.
