

Submitter: Delores Porch

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4088

Medical providers and those receiving legal reproductive care or transgender care in Oregon should not have to worry about bounty hunters from other states or it's residents who oppose these procedures causing harm. We still live in a country where we can cross state boundaries and obtain legal health care in other states that provide it. Now we need assurances from our legislature that it will be safe.
