

Submitter: Beverly Ferguson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4114

I strongly support HB4114 because it reaffirms our constitutional right to be free from unreasonable search and seizure, and defines protected public spaces to be included. This is an important and necessary measure to protect all of us from the aggressive actions that are ongoing by federal agents because it is specific in requiring a judicial warrant to enter, and provides for court action for violations. It does not hinder law enforcement, but requires that they act in line with the Constitution and laws. This is a reasonable measure that will provide clarity and security for Oregon residents, visitors, workers, businesses, and families.
