Measure, Appointment or Topic: HB4088

Please vote YES on HB4088. It is important that the medical records of those seeking reproductive or gender-affirming health care activity be protected from those outlined in Section 3(2)(a). Because Roe v Wade was overturned it has been necessary for Oregon to protect the rights of those seeking reproductive health care. Also those wanting gender-affirming health care is under attack.

There is so much outlined in this Bill that is important to individual rights and in particular Section 9 about confidentiality of individually identifiable information is an example of much needed language.
