

Submitter: Mike Slagle
On Behalf Of: Abortion or gender affirmation is not health care
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: HB4088

I strongly oppose this bill. It is meant to hide the atrocities of gender dysphoria and doctors who perform gender affirmation surgeries or prescribe medications to thwart ones gender at birth. There needs to be legitimate legislation to protect, especially teens from following through with these non-reversible atrocities. This also applies to abortion, it is not health care by any means and is in today's culture used as birth control. Vote no on this bill.
