Measure, Appointment or Topic: HB4088

I strongly oppose HB 4088. I am pro-life and believe every life is precious from conception until natural death. An "unplanned" pregnancy still creates a life that deserves to live. many organizations provide care and encouragement to women in that situation who could end up being good parents. Many families are waiting to adopt children from such a situation when the woman's choice is to give up the child. Providers of abortion and particularly chemical abortion should not be shielded from the harm so frequently caused. Others' testimony already submitted have gone into detail about such harms. I need not reiterate.

As to the wicked lies about gender "affirming" care, the stories of the horrible suffering (and regret!) by those who've undergone gender transformation are being regularly published. Anyone who can overlook such lamented outcomes, in abortions or in transitions, is heartless and should not be shielded from lawsuits or other punishment. Moe oversight is warranted, not 'protections'.

I oppose the very notion of non-cooperation with law enforcement on any level. Lastly, there is no 'emergency'. This bill impacts too many lives too pervasively and should be put to a vote of the citizens of Oregon. "Declaring an emergency" is denying our voices.

Please VOTE NO on HB 4088.
