

This bill is necessary to show our immigrant friends, family, and neighbors that we're not powerless to stand up for them and against ICE. With minimal fiscal impact and no projected revenue impact, this bill is entirely about ensuring equity in education in Oregon, and to push back against ICE's terror campaign as a whole. Hopefully this bill and others like it can help stem the massive loss of learning time, as well as the general fear to attend classes in at-risk communities.
