Another Bill I STRONGLY OPPOSE!

Yet another bill to protect unvetted strangers who have already broken the law. We have a LEGAL way to enter this country. This type of legislation and focus from this legislative body and your inability to manage our tax dollars are causing people and businesses to leave this state which by reading the bills from this legislative body, it appears that none of you have a care about that at all.

I encourage ALL of this legislative body to change your focus to the LEGAL citizens of this state and FIX THE BUDGET!

None of you are representing the people of this state or country by trying to pass bills that protect those who cannot even vote for you... or can they? Unbelievable.

NO to HB 4114!
