House Committee on Health Care

That SB 1598 is even being considered as a possibility moves us into a most dangerous place in Oregon. Honestly, it is hard to imagine as I think of it's negative implications in the lives of all of us, except those who will certainly benefit from it's power over others and their financial gain. It is at it's core corrupt. It is the quintessential opposite of what our country is founded on. It removes freedom of choice for our lives, our bodies, our health and puts it into the hands of unelected bureaucrats.

PLEASE, this must STOP!

Thank you, Christine Barber
