

Submitter: Randal Flaming

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4088

Oregon has a culture of death. We encourage killing innocent and helpless people in any and every way we possibly can. This bill is just the latest attempt to increase the number of unborn people who are murdered in this state, because we never seem to get enough of that. I oppose that objective and encourage you to vote down this bill.
