NO on HB 4111A

HB 4111 -amended to – The measure amends the evidence code to state that a witness's immigration status is not admissible in a civil proceeding, unless that status is essential to the party's claim for relief. Provides directions on how to request to introduce evidence regarding immigration status. Requires that the motion to introduce said evidence and related materials filed with the court are confidential, with certain exceptions.

Makes it illegal for an employer to discriminate or retaliate against an employee because they update (or try to update) personal information related to their federal employment records due to a lawful change.

Although it replaces the attack on law enforcement, the bill still protects security information. As we are learning, there is a movement to take our courts over with Sheria law.

8 USC 1324: Bringing in and harboring certain aliens

8 U.S.C. § 1325 - U.S. Code Title 8. Aliens and Nationality

8 U.S. Code § 1325 - Improper entry by alien

8 U.S. Code § 1326 - Reentry of removed (deported) aliens; criminal penalties

Remember the Federal Law concerning placing impediments and or obstruction, shielding from detection to thwart the removal of Illegal Aliens. Apparently many of you did not have Civics class and are virtue-signaling to the minority of Oregonians and are in direct REBELLION to the Federal Government. This bill is a direct attack on the rule of law and jurisprudence.

I DO NOT understand any state that is in direct opposition to Federal law. As a legislature, you should not be trying to circumvent laws that directly contradict federal laws. You are hell bent on protecting people who have not been vetted and have come here ILLEGALLY. This piece of so-called legislation needs to hit the burn pile and be torched. Listen to the majority of the people here who STRONGLY OPPOSE this type of legislation that would severely inhibit justice in our court system and grant people who have already broken the law a free pass for doing so.

NO to get out of jail free card passes to those who have already broken our laws! Turn them over to the Federal Government and STOP protecting criminals! There is a right way to become a citizen in our country and shame on anyone wanting to circumvent that process! Evidence of a party's or a witness's immigration status should absolutely be admissible as evidence in a civil proceeding. If they are here illegally they should have no involvement or benefits from our legal system. "Due Process" is clearly defined in the US Constitution as a right for LEGAL CITIZENS.

Oregon citizens are not being protected because you are allowing illegal immigrants to benefit from the system that we pay for. It is no wonder we have one of the highest costs of living in the nation, because of Oregon's sanctuary state policy and your over-taxing, over-regulating bills you constantly push out. The large majority of Oregonians want to know, when will you put as much care into the citizens who live here as much as you do for immigrants???
