

Submitter: Jake Brown  
On Behalf Of:  
Committee: House Committee On Health Care  
Measure, Appointment or Topic: SB1598

SB 1598 is a new rule that picks a specific date in 2025 and says we have to follow old health rules from then forever. It also says that if the state health officer picks a new shot, everyone has to pay for it automatically. This isn't fair because it doesn't let parents or doctors decide what is best for their own bodies, and it doesn't let people say "no" if they don't want it.

This rule will also make health insurance cost a lot more money for families and small businesses in Oregon. We already have laws that help people get check-ups, so there is no emergency. Making this an "emergency" means people don't get to talk about it or vote on it like normal. Vote against SB 1598 because it costs too much and takes away our choices. We should focus on making health care cheaper and letting people choose what is right for them.
