

Submitter: Elizabeth Turner

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4088

I oppose any and all care that alters sexuality. It's a disgusting and damaging experimental horror. In light of numerous law suits against doctors and hospitals it also a money pit.

From a faith point of view. You are destroying the identity people really have. They are the ones in frustration committing mass shootings.

Your also violating current federal law..

Your in violation of acts of the US Justice system.

Thank you

Liz Turner
