Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4143

Attention to the Senate Committee on Judiciary, regarding HB 4143. I oppose this bill because Oregon should pursue grievances through the federal courts and Congress.

Governor Kotek's lack of knowledge of Federal laws is apparent as time passes. Time and time again, Kotek's legislative actions are proof positive that her personal power is more important than a successful state. Stop Governor Kotek from turning the State of Oregon into the State of Minnesota!
