Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4088

Medical professionals who violate the Hippocratic oath of, "first do no harm" by murdering the unborn and mutilating human beings made in the image of God are undeserving of any protection at taxpayer expense. I find this bill to be very telling with regard to the moral bankruptcy and degeneracy of its sponsors. Make no mistake, supporting this bill puts you directly in the crosshairs of the wrath of Almighty God!
