On Behalf Of: Visitors of the State of Oregon
Committee: House Committee On Economic Development, Small
Business, and Trade
Measure, Appointment or Topic: SB1548

I haven't been to Oregon much (maybe 5 times) But every time I go, I buy edibles in an amount sufficient to keep me going through the times I cannot be there. I am PROUD to be a contributor to your states economy. So long as there is a reason for me to do so, I will continue to purchase my edibles there. But if you pass this legislation, I will not be able to justify doing so.
