On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1538

I wholeheartedly support Oregon SB 1538 which guarantees public school enrollment regardless of immigration documentation status. This law is needed to uphold legal precedent and establish specific guidelines to inform school district operations. Passing this law is the right and moral thing to do. It is reprehensible that defeat of this law might provide an open door for ICE discrimination against innocent law-abiding people. Please support this bill.
