

Submitter: Kenneth Corbin

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4143

I support this bill as a reasonable safeguard against the not all that remote possibility that the current administration will eventually decide that it no longer has to be bound by federal laws and federal courts. I am very aware that this is one small step into what could be very dangerous waters, but conditioning it on initial defiance by the federal government makes it clear that this is a response only to federal overreach.
