

Submitter: Bridget Abshear

On Behalf Of:

Committee: House Committee On Health Care

Measure, Appointment or Topic: SB1598

SB 1598 ensures that those who choose to receive immunizations will continue to have access to this preventive health service, without additional costs or barriers. This bill does not add any vaccine requirements.

As a resident of Oregon, I want myself and my loved ones to be able to choose the protection that vaccines offer, without ever needing to worry about whether we can afford to pay. I support SB 1598 to help ensure Oregonians' access to healthcare will continue to be informed by strong scientific evidence, no matter what happens at the federal level.

Thank you.
