Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: SB1548

This is a ridiculous bill. Alcohol is not held to this same standard, you can buy a bottle of vodka and it is understood that it is the adult consumers responsibility to portion out their servings and to prevent children from access. Edibles should be no different, and the fact that this will only hurt legal, regulated manufacturing and consumption in Oregon will penalize only the people of this State that actually care about public welfare and safe edible practices.

Please hold Marijuana and Alcohol to the same standards and allow adults to make informed decisions without spiking prices and limiting serving sizes on the production end.
