

Submitter: Kraig Hunter

On Behalf Of:

Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or SB1548
Topic:

This would make edible less safe and even more like candy if doses are reduced to 10mg. I think the unintended outcome would be edibles being sold in low doses and high quantities. Like skittles. They will get misplaced and misused especially by children. This would also make edibles more attractive to children. It's will also put undue financial strains on already struggling local businesses.

Regards,

Kraig Hunter
