Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

This bill is being dishonest. There are loopholes in the text and the amendments that will effectively allow for large AI data centers to be build no matter what various politicians are advertising it as. We do not need AI data centers on this land proposed. If this bill is really about bring long term advanced manufacturing jobs to Oregon, then amend the bill to ban ALL data centers under this legislation. We do not new more data centers in our area consuming and driving up the costs for water and electricity.
